3) Which statement best describes the management of this case?

- There were no areas of concern or for consideration in the management of this patient 3
- There were areas for consideration but they made no difference to the eventual outcome 4
- There were areas of concern but they made no difference to the eventual outcome 5
- There were areas of concern which may have contributed to this patient's death 1
- There were areas of concern which CAUSED the death of this patient who would have been expected to survive 2

Please specify ACONs overleaf (code and text) in sections 5 and 6. If Clinical Event only, please complete section 4 below.

4) Clinical Events

If major clinical events occurred which caused or contributed to the patient's death but were not clearly linked to the patient's *management*, then these should be recorded here. These are listed in part two of the code book. You may also add free text if you wish. These are issues for discussion that will also be fed back to clinicians.
