

Scottish Audit of Surgical Mortality

Surgical Coordinator's Re-assessment Form 2010

Study number

2010 /

Assessor's code:

1 Description of change made to assessor's form

- Case note review changed to area of concern for consideration Yes 1
- Case note review changed to no areas of concern or for consideration Yes 1
- Area of concern or for consideration changed to case note review Yes 1
- Area of concern or for consideration changed to no comments Yes 1

2 Reason for modifying the first line assessor's comments:

3 Which statement best describes the *management* of this case?

(An **area of concern** is where the assessor believes that areas of care should have been better.
 An **area for consideration** is where the assessor wishes to draw the clinician's attention to areas of care that he/she believes could have been improved, but recognises that it may be an area of debate.)

- There were no areas of concern or for consideration in the management of this patient 3
- *There were areas for consideration but they made no difference to the eventual outcome 4
- *There were areas of concern but they made no difference to the eventual outcome 5
- *There were areas of concern which may have contributed to this patient's death 1
- *There were areas of concern which CAUSED the death of this patient who would have been expected to survive 2

*Please specify ACONs overleaf (code and text) in sections 5 and 6. If Clinical Event only, complete section 4 below.

4 Clinical Events

If major clinical events occurred which caused or contributed to the patient's death but were not clearly linked to the patient's *management*, then these should be recorded here. These are listed in part two of the code book. You may also add free text if you wish. These are issues for discussion that will also be fed back to clinicians.
